Designer:
Bellitalia Design Department

Product:

Linear modular bench model “LOUNGE” for three, composed by a monolithic seat, possibly equipped with four armrests and three backrests, fastened through specific spacers and square centres, to ease the water discharge from the seat.

Dimensions:

length: 1780 mm;
width: 585 mm;
height: 718 mm;
total weight: about 740 kg.

Material:

The backrest and the seat are manufactured using white granite conglomerate. Both the backrest and the seat are manufactured in only one concrete casting. Steel armrests composed by a pipe with elliptical section 40x20 and 2 mm of thickness, equipped with thread bars held in place by specific resins; thread bars are then fastened to the seat's holes by bi-component chemical anchors. The spacers are composed by a pipe's portion having a diameter of 40 mm and a thickness of 2 mm, and are fastened, with acetate square centres, through a thread bar M16 L150 and bolts M16, that allow a possible replacement.

Reinforcing:

The bench is reinforced and endowed with bushes that permit its lifting, and that are covered with a Bellitalia plate after the placement.

Finishing:

The bench's surfaces can be sandblasted or natural smooth, and are then covered with a transparent anti-decay coating, or, upon request, with nanotechnology and/or anti-graffiti products. All metal parts can be treated by a hot dip galvanisation and painted with RAL7021. All edges are rounded or made blunt.

Handling:

Use appropriate equipment when handling.

Installation:

Simply lay the bench on the flooring, accordingly with the chosen layout.
