

“AFRODITE” Bench

Sheet code: *PACL016*

Drawing code: *AP01100401*

Revision: *02_01/10/2015*

Designer:
Bellitalia Design Department

Product: Linear concrete bench model “AFRODITE” with rounded seat surface and supporting feet.

Dimensions:
length : 2450 mm;
width: 600 mm;
height: 451 mm;
total weight: 610 kg.

Material: Both the seat and the supporting feet can be manufactured using reconstituted natural marble stones or white granite conglomerate. The elements are fastened by using through screws and bushes.

Reinforcing: The seat surface is reinforced with a double electric welded frame and bushes.

Finishing: All surfaces are sandblasted, except for the seating surface that can be polished, to give the product a shiny effect, or bush-hammered, for a rough appearance. Surfaces are then covered with a transparent anti-decay coating, or, upon request, with nanotechnology and/or anti-graffiti products. All edges are rounded or made blunt.

Handling: Use appropriate equipment when handling.

Installation: The bench can be simply placed on the flooring, or it can be permanently fastened by screwing four bushes to the thread bars fitted on the supporting feet. The thread bars are then inserted into pre-arranged holes filled with a chemical anchor, until the feet's bases are perfectly levelled to the ground.
